RECESSED Wall Washer for Plaster or Drywall

*Ideal placement is
24" to 36" from the front
edge of fixture to the
surface you are lighting,
for 8' to 10' ceilings.*

System

Small, high performance wall wash fixtures with exceptional lamp shielding from the normal viewing angle. The shallow 3-1/2" design also allows wall installation in a standard 4" wall to wash the ceiling or floor with light. Formed, high purity aluminum reflectors provide even, unscalped illumination.

Specifications

Small, recessed fluorescent wall washer for use with PL Quad and Triple Tube. Fluorescent fixture is 3-1/2" deep with ballast mounted within the housing. The shallow 3-1/2" fixture may be recessed into a standard 4" wall to wash the ceiling or floor with light. By lining the "wall recess" with gypsum, the wall installation may also be modified to maintain a one hour fire rating (SEE INSTRUCTIONS).

The one piece, formed reflector is high purity aluminum (99.9%) with 95% reflectance. It is easily removable without any tools for access to the ballast and wiring. Reflector design provides even unscalped illumination with complete lamp shielding even when viewed directly beneath the fixture.

TGIC polyester powder coated housing is made of 22 gauge CRS with knock-outs for through wiring. All fixtures are supplied standard with Luminaire Disconnect. Trim is extruded aluminum.

UL/CUL Damp Location listed.

U.S. Patent #5,142,459

Options

- Ballast 120 HPF Electronic (Standard)
277 HPF Electronic (Some Models)
Dimming -DM
- Finish White (Standard)
